¹DCFSA's are never taxed at a federal income tax level when used appropriately for eligible dependent care expenses. Also, most states recognize DCFSA funds as tax deductible with very few exceptions. Please consult a tax advisor regarding your state's specific rules. | ²The example is for illustrative purposes only. Estimated savings are based on a maximum annual contribution and an assumed combined federal and state income tax bracket of 20%. Actual savings will depend on your contribution amount and taxable income and tax status. | ³Contribution limit is accurate as of 08/01/2022. Each fall the IRS updates the DCFSA contribution limits.
